

Please do not change the "Do not call list". After coming home from a long work day it is a pleasure to sit down talk to the family have undisturbed dinners. This invasion of privacy even though we pay for an unlisted number is not wanted. Besides if there is a product we would want to buy we shop and buy it we do not need sales telemarketers calling us.

Another reason is because we get up so early in the morning we go to bed early. I always answer the phone in case it is an emergency but do not wish to be awakened by a solicitor just because they are allowed to call up to 9 pm.

Think about the public and not the political business community as we are the blunt of paying taxes.

Thank you
